CHALLENGE

Traditional mounting of equipment often looks inconsistent and unplanned.

Installation mistakes render certain existing devices inoperable.

INCREASE HCAHPS SCORES SIMPLIFY FACILITY MAINTENANCE

SOLUTION

Perception = Reality

A neat and organized patient care setting presents the patient with a well managed environment. This has a direct positive impact on the perception of the care they receive.

Increased HCAHPS scores =
Increased reimbursements

Mounting to the “Evolution” Equipment Management Rail allows for unlimited changes without the need for patch and repair, lost room down-time, or perfectly planned placement.

- Adapters and mounting plates embedded with active anti-microbial infection technology
- Devices, Equipment, and Accessories snap-on and snap-off
- Lockable snap-on adapter for tamper-proof placement of items
- Flexible, Adaptable, Expandable for limitless contractual changes and user definition of space without facility burden

CHALLENGE

Traditional mounting of equipment is a consistent drain on precious financial resources caused by changing contracts, new technology, and staff requirements.

REDUCE ROOM LIFECYCLE COSTS BY MORE THAN 75%

SOLUTION

The "Evolution" Equipment Management Rail System allows for unlimited changes without the need for patch and repair, lost patient stay revenue, or perfectly planned placement.

Simply unlock the adapter and items snap-on and snap-off at will.

The burden of change is on the adapter and mounting hardware, not the walls and the furnishings.

- Adapters and mounting plates embedded with active anti-microbial infection technology
- Devices, Equipment, and Accessories snap-on and snap-off
- Lockable snap-on adapter for tamper-proof placement of items
- Flexible, Adaptable, Expandable for limitless contractual changes and user definition of space
