Stainless steel onboard regulator & canister holder

SSSCOR, Inc. provides portable and onboard vacuum solutions to meet your emergency suction requirements. SSCOR onboard vacuum systems include options for different pre-hospital applications, conditions and ambulance configurations.

All SSCOR suction products utilize disposable collection for ease of use and operator safety, meet standards for suction efficiency and provide variable vacuum regulation without restricting flow. The new 23000 series rugged plastic regulator and canister bracket provide rounded edges conducive to the interior of the patient care area.

Onboard Suction Solutions from SSCOR, Inc.

SSCOR/board™ CUSTOM CONFIGURATIONS

- 1 Choose a regulator.
- 2 Choose a canister holder.
