

Eura
design Giovanni Baccolini

Eura

FEATURES

- Eura's functionality extends beyond its ability to be placed within a variety of spaces such as corporate and learning environments.
- Its upholstered seat is easily paired with an upholstered, mesh, wood or polypropylene back.
- The Eura meets or exceeds the product and safety standards of ANSI/BIFMA X5.1-2002.
- Upholstery options are endless with our range of standard textiles, as well as the opportunity for Customer's Own Materials (COM).
- The Eura is defined by the elegant pronounced lines of the chrome-plated steel frame, constructed of a 1" (25 mm) tube.
- The arms are highlighted with a comfortable Black "soft-touch" elastomer pad.
- The seat and upholstered back are made of a 0.4" (10 mm) beech ply-wood, padded with CFC free high density polyurethane.
- The seat is designed with a waterfall front edge to alleviate pressure on the back of the thighs. For superior comfort the seat is padded with a 2" (55 mm) CFC free polyurethane foam.
- All sewn pieces are topped stitched for superior strength, quality and a more refined aesthetic.
- The mesh back is a more contemporary solution allowing for air circulation, it is made out of a painted steel rod, covered with a polyester mesh available in 5 colors.
- The plastic back is easy to clean and is made of injection molded polypropylene, with a slip-proof finish.
- The 0.4" (10 mm) natural stained wood back highlights the natural beauty of the beech veneers.
- The Eura comes standard with black nylon glides.
- The Anti-panic writing tablet, allows for easy access out of the seat in case of emergencies. It is made of a durable Black polypropylene, and the Anti-Panic movement is encased in a polished die cast aluminum cover.

OPTIONS

- Polypropylene back available in Translucent or Black.
- Mesh backs are available in 6 colors: Black, Gray, White, Red, and Navy.
- Custom wood back stain.
